Sinofert Receives “Best Energy and Resources Company Award” in Golden Hong Kong Stock Award 2020

(6 January 2021, Hong Kong) **Sinofert Holdings Limited** (“Sinofert” or the “Company”; together with its subsidiaries referred to as the “Group”) (stock code: 00297.HK), is pleased to announce that the Company was presented with the “Best Energy and Resources Company Award” at the 5th Golden Hong Kong Stock Award 2020 Presentation Ceremony, which fully shows that the Company's brand value is widely recognised by capital market participants.

Co-organised by ZhiTongCaiJing (「智通財經」) and Hithink RoyalFlush Information Network Co.,Ltd.(「同花順財經」), the “Golden Hong Kong Stock Award 2020” Annual Awards Presentation Ceremony has been running into its 5th year since 2016, which paid tribute to outstanding listed companies in a wide range of different categories in the Hong Kong stock market. The list of the final winners was scored by the professional judging panel based on performance growth, industry rankings, corporate governance, business model, market influence, and capital market performance over the past year, together with corresponding public voting weights. Today, “Golden Hong Kong Stock Award” has become the world’s most authoritative selection of Hong Kong listed companies, and has provided the benchmarks that are widely recognized by global investors. "Best Energy and Resources Company Award" is a great recognition to the listed companies of energy and resources in Hong Kong. This award also fully demonstrates the prominent position of Sinofert in the industry and its important value to the investors.

As the largest importer of fertilizers in China, Sinofert has more than 60 years of international trade experience in the fertilizer industry, maintaining strong strategic cooperative relationships with major fertilizer suppliers around the world, acting as a major source of imported fertilizers in China. Sinofert also plays a significant role in meeting domestic needs for quality fertilizer products which are otherwise in short supply. The Company also constitutes China’s largest fertilizer supplier and distributor, covering the whole industry chain of resources, research and development (R&D), production, distribution, and agronomic services, forming a vertical integrated business from upstream to downstream. The mission of Sinofert is to provide high-quality resources from the global market with China as its base and to provide food security and agricultural production services to raise industry standards and promote industrial development. In June 2020, the controlling shareholder of the Company was changed to CNAC (HK) Holdings Company Limited, a subsidiary of Syngenta Group Co., Ltd. (“Syngenta Group”). Close synergy with Syngenta Group’s member companies brought

new opportunities for the development of the Group.

The Company said, “The Group will adhere to the requirements of the Central Government and rely on the leading science and technology of Syngenta Group to ensure national food security in 2021. At the same time, the group will make full use of MAP's unique innovation platform to develop resources, production, technology, marketing and services, using the latest research and technologies to serve society to raise industry standards and promote industrial development. This award demonstrates the investment attraction and intrinsic value of Sinofert. Looking forward, we will continue to strengthen the cooperation with scientific research institutes and continue to make efforts to break through the bottleneck of China's agricultural modernization technology.”
