China Water Affairs Won the “Best Infrastructure and Public Utilities Company Award” at 2020 Golden Hong Kong Stocks Award

(6 January 2021, Hong Kong) **China Water Affairs Group Limited** (“China Water Affairs” or the “Company”; stock code: 0855.HK), A leading professional, market-oriented, and cross region water supply operator in China, is pleased to announce that the Company has been awarded with the “Best Infrastructure and Public Utilities Company” at the 5th Golden Hong Kong Stock Awards, demonstrating wide recognition from the market and the investment community of the Company's outstanding performance in the field of infrastructure and public utilities.

Co-organized by Zhitong Caijing, China’s leading Hong Kong stock information service provider and Tonghuashun, China’s leading listed company in the Internet financial information service industry, “2020 Golden Hong Kong Stock” has been running into its 5th year and to mainly recognize outstanding listed companies in various sectors of the Hong Kong stock market. Based on the performance growth, industry ranking, corporate governance, business model, market influence and capital market performance of enterprises in the past year, the selection committee of experts gave a comprehensive score, supplemented by the corresponding weight of public voting, in order to select the final winning companies. Today, “Golden Hong Kong Stock Award” has become the world’s most authoritative selection of Hong Kong listed companies, and has provided the benchmarks that are widely recognized by global investors.

“We are honoured to receive the “Best Infrastructure and Public Utilities Award”, Mr. Duan Chuan Liang, Chairman of China Water Affairs, said, “The COVID-19 outbreak in early 2020 has had a huge impact on domestic economic life. Facing such unprecedented challenges, the Company was able to respond calmly and leverage the advantages of stable public utilities income and cash flow to maintain steady business development and enhance service standards with its healthy financial foundation. The Company has ensured a safe and stable operation of its water supply and sewage

treatment in every city the Company operates and has realized the steady development of the business in cooperation with the government's economic recovery plan. This award is a recognition of our efforts and perseverance in serving the people and fulfilling our social responsibilities over the years. Looking forward, China Water Affairs will continue to focus on the comprehensive and steady promotion and high-quality development of water supply business, constantly improve the core competitiveness, and contribute to the improvement of people's livelihood.”
